FALL / HOLIDAY 2016

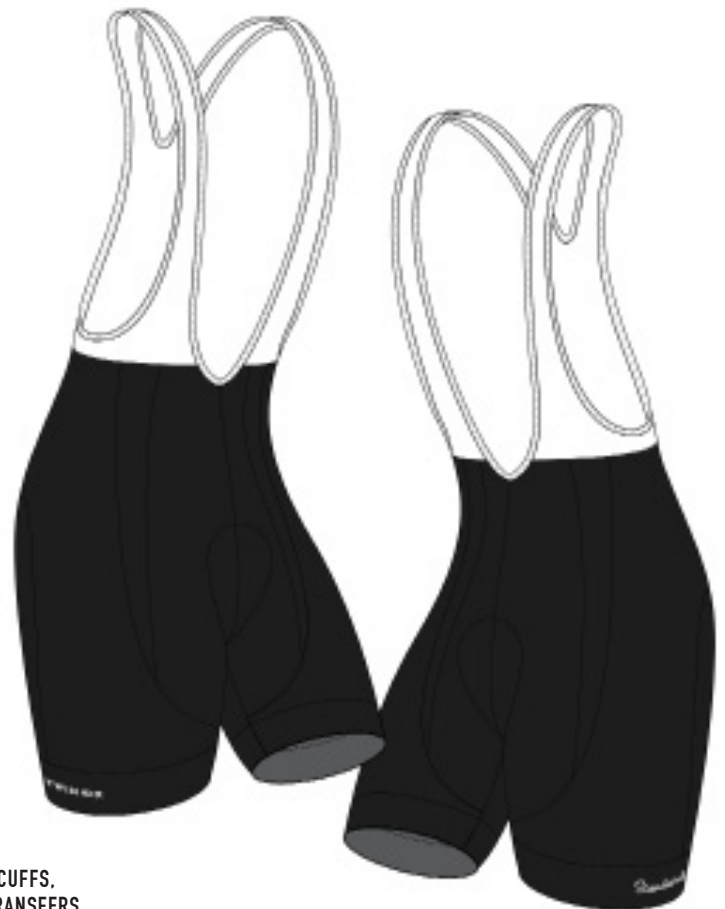

## THE STANDARD JERSEYS

### BLACK, WHITE & ORANGE

Refined for 2016, the v2 Standard jerseys have been updated with longer sleeves. Your tan lines will be lower, but the sleeves are better proportioned through the shoulders and around your biceps. We also upgraded the zipper to something a little thinner and more flexible to smooth out any fabric puckering down the front. Matte black heat transfers have also replaced the embroidery on the sleeve cuffs. In the end, a handful of tiny tweaks designed to keep you as cool and comfortable as possible while on the bike.
